

# William I. “Bill” Noethling Jr.

Universal Steel

Current-Executive Vice President

Past- Bill started with Universal Steel in 1971 as a drafting trainee. This was followed by 2 years shop and field erection experience along with the formation of a second company dedicated to specialized steel erection projects. He became Executive Vice President of USI in 1989. He remains active in the day to day running of the company. Bill is responsible for insurance & bonding requirements for both companies. He developed & implemented A.I.S.C. Quality Certification manual and procedures for both companies. Bill also is the management I.T. representative and deals with all facets of companies I.T. requirements.
